**BELL TAKES TO THE SKIES**  
*Construction is Underway at the Nashville Airport*

(Nashville, TN- October 27, 2006) – Just two days after opening the Demonbreun Street Bridge five months ahead of schedule, Bell and Associates Construction takes flight at the Nashville Airport.

Bell & Associates Construction has officially started construction on the terminal renovations at the Metropolitan Nashville Airport. The firm was awarded the \$39 million contract just a few weeks ago and has been given the go ahead to begin the first phase of a five-year project that will transform Nashville International's terminal and concourses. Bell's portion of the construction will occur over the next three years.

The renovation includes construction of a consolidated security checkpoint comprised of 11 lanes, flanked by shimmering water walls. Travelers will also get new local and national brand food and beverage concessions, and news and gift shops.

Bell & Associates Construction is a full-service general contractor and provides construction management and pre-construction services. Headquartered in Brentwood, Tenn., the firm builds transportation, correctional, commercial, corporate, hospitality, sports-venue, entertainment and institutional structures across the Southeastern United States. Bell is on the web at [www.balp.com](http://www.balp.com).
